

Deer Class Newsletter

June 2017

Dear Parents/Carers,

We hope you all had a great half term.

Here are some of the things that we would like to share with you this half term.

Deer Class

We have continued to make excellent progress in school and have done especially well with our reading last term, well done Deers. Please continue to use the home/school link book to liaise with the staff and we will endeavour to get back to you as quickly as possible. Also please continue to use the yellow reading record books. We have a reading reward scheme in school on Thursdays, the more your child reads at home and at school, the more rewards they get.

PE

Deer Classes PE days will continue to be on Monday mornings and Friday afternoons. We will be learning athletics and practicing for sports day.

Contributing to our local area.

Deer class will be displaying some of our wonderful artwork as part of Waterlooille School Arts Trail. We will have our work displayed next week in Pearsons Estate Agents. There are some small pictures of children interacting with minibeasts in our collage. If you do not want your child's photo to be displayed in this art work please let us know and we will remove it. Thank you.

Important dates

Please check your child's home/school link book for further dates or any amendments.

Saturday 17th July - Summer fayre

Monday 17th July - Parents evening

Thursday 20th July - Parents evening

Friday 21st July -Sports day

Tuesday 25th July - half day for the end of term.

Deer Class Topics

Key Stage One's topic for this half term is 'Going Places'. We will be looking the different places we can go in and around our local area, we will be deciding as a class where we want to go and will be writing about our choices and requests. There will be a few more small trips around the local area this half term.

In English we will be looking at lists, labels and captions. We will continue to practice reading and spelling our key words and continue to learn new sounds in phonics.

In Mathematics we will be looking at shape as well as continuing to practice our numbers, adding and subtracting.

To continue these topics with your child at home, here are some ideas that you could use to help:

- Explore your own local area. What different places are there? Where do they like going and why?
- Look for different shapes when out and about and at home. Can they count how many corners and sides the shapes have?
- Look at or make lists such as shopping lists or what to take on a trip out. They can use pictures for these too.
